

## Meet NEC's Student

Khalil Nasralla, is an Orthopaedic Doctor and zealous minister for the Lord here in the Holy Land. Dr. Khalil grew up in a Christian home and became a Christian at a young age. However, in his teenage years he became an atheist and went far away from the Lord. Over time God began to bring him back to faith. He went off to study 12 years at medical school and during his studies he began to feel a call to ministry. This calling unfolded to him ministering in many ways to his community. He serves as a minister to the youth and even runs his own Youtube channel where he posts apologetic videos about faith and science. He serves on an apologetics team in the country and has a heart to serve in family ministries.

Khalil is currently in his second year of a Masters degree at Nazareth Evangelical College. He says that his purpose in joining was to develop his biblical knowledge, theological foundation, and critical thinking. He affirms that already his studies have begun to bear fruit in all of the different ministries that he is called to.

### Please pray with us for:

- \* The second wave of coronavirus in Israel is almost over due to a long and mentally and financially devastating closure, please pray that we won't go through another wave of coronavirus.
- \* Our MA students are in their last semester and will be writing their dissertations, please pray for them to be able to concentrate and have a sound mind.

### We praise God for:

- \* The opportunities to have more students enrolling to our academic programs, due to developing our distance learning online teaching, the increase is not only in number of students but also in the regions that we are reaching out to.
- \* Our staff that is doing a great job working in unusual circumstances due to the pandemic..

**Would you prayerfully consider partnering with NEC this year to give scholarships to students like Khalil on Giving Tuesday, Dec. 1, this year?**

Together  
we give.
